

What's the aim of our Ethical Adventurous Plan and who is it for?

The aim of our Ethical Adventurous Plan is to generate growth over the longer term while also aiming to avoid investments in harmful activities such as tobacco, gambling, weapons and adult entertainment. Our Ethical Adventurous Plan features funds that actively invest in companies demonstrating the highest environmental, social and governance practices.

The Plan can contain up to 25 mutual funds from different regions around the world and is mostly made up of shares and bonds. Some 'thematic funds' will focus on themes such as gender equality (companies that strongly champion these issues) or green energy.

The Ethical Adventurous Plan is suitable for investors focused on maximising potential gains, and willing to see substantial movements up and down in value to try to achieve high returns.

Investing should be part of a long-term savings strategy, and whilst money can be withdrawn from a Wealthify Plan at any time, investing for less than 5 years is unlikely to be appropriate for an Ethical Adventurous Plan. Investors should be aware that few ethical funds employ currency hedging, which may see divergence in performance between original and ethical plans.

What makes the Ethical Adventurous Plan different?

The example below shows a typical mix of high and low risk investments used in our Ethical Plans. The Ethical Adventurous Plan can hold between 80% and 100% of high risk investments (Shares & Property) with the remainder in low risk investments (Bonds, Cash, Cash Equivalents), but this can vary.

There may be occasions when the Investment Team will lower the percentage of high risk investments making the range 70% to 100%. Although this could impede the growth potential more than is normally associated with an Ethical Adventurous Plan, it would only be done when considered necessary, according to market conditions.

Benchmarking

Our Ethical Adventurous Plan performance is measured against the ARC Sterling Equity Risk PCI. The PCI is a peer group benchmark which shows how other companies' plans with a similar risk profile have performed. The indices are based on real performance numbers from hundreds of other plans.

Risk of loss

With investing, there's always a chance that investments can go down in value. In a one-year period, there's a 5% chance you may lose more than 12.73% of the value of an Ethical Adventurous Plan. This is not a maximum loss and losses in the future may be greater.

Typical Investments in an Ethical Adventurous Plan

This is an example of the typical investments you might see in an Ethical Ambitious Plan. We use a blend of passive and active funds. Some funds may exclude companies that profit from harmful activities, whilst others may invest in companies provided they earn no more than 10% of their profits from the activity. So we cannot guarantee that our Plans won't contain some degree of the activities we aim to exclude.

Investment	ISIN	% of Plan
Cash	Cash	2%
Vanguard U.S. Government Bond Index	IE00BFRTDB69	10%
Royal London Short Duration Gilts	GB00BD050D80	2%
iShares UK Gilts All Stocks Index	GB00B83HGR24	2%
Royal London Sustainable Leaders Trust	GB00B7SGTR82	7%

Fidelity Sustainable Japan	LU2327455841	6%
Stewart Investors Global Emerging Markets Sustainability Fund	GB00B64TS998	4%
Stewart Investors Asia Pacific Sustainability Fund	GB00B0TY6V50	6%
Pictet - Global Environmental Opportunities	LU0503632878	4%

ADVENTUROUS ETHICAL PLAN FACTSHEET

Foreign currency

An Ethical Adventurous Plan could contain up to 100% in overseas investments which are held in a foreign currency.

Typically, the more foreign currency held in a Plan, the greater the potential risk and volatility.

Investment Mix

This is a typical example of the mix of investments in an Ethical Adventurous Plan.

Regional Mix

This is a typical example of investments by region in an Ethical Adventurous Plan.

The Investment Team at Wealthify review and adjust the investment and regional mix on an ongoing basis to try to optimise the performance of our Plans.
